

CHICAGO COMMUNITY CLIMATE ACTION TOOLKIT

PROJECT APPROACH: BRONZEVILLE

BRONZEVILLE'S CLIMATE ACTION PROJECT:

Community organizations are promoting neighborhood growth through community gardens, healthy vegan cooking, and "green" tours.

In Bronzeville, a social services organization is partnering with a vegan chef and a local developer to implement the climate action strategies listed here. This project is designed to take full advantage of the community's strengths while also addressing local concerns.

Learn more at: climatechicago.fieldmuseum.org/bronzeville

Community strengths and concerns were identified through research carried out by Field Museum anthropologists with community organizations. Research summaries and reports are available at: fieldmuseum.org/climateaction.
